

22. The emergency support of claim 21, wherein said surface is a surface of a solid structure; and said side clips are mated by corresponding hooks and loops of a hook and loop side connector.

23. The emergency support of claim 22 further comprising a multi-point belt having lengths adapted to allow said cushion and said patient to be secured to said solid structure.

24. The emergency support of claim 23 further comprising a central lock for securing said multi-point belt lengths.

25. The emergency support of claim 24 further comprising a pelvic cloth.

26. The emergency support of claim 25 further comprising carrying straps.

27. The emergency support of claim 26 further comprising an eye for a crane hook.

B, 28. The emergency support of claim 27 further comprising:  
a first cover surrounding said cushion and bearing said side clips; and  
a second cover surrounding said solid structure and having openings adapted for allowing passage of said belt straps, carrying loops, crane eye, and pelvic cloth.

29. The emergency support of claim 22 further comprising a head and neck support cushion.

30. The emergency support of claim 22, wherein said solid structure is a stretcher.

31. The emergency support of claim 22, wherein said solid structure is a rescue plate.

32. The emergency support of claim 22, wherein said solid structure comprises a plate removably connected to a motor vehicle seat.
